

Big Stampede, Carnival, and Sports on Hussar, May 24th, 9128

GREAT CELEBRATION PREPARED FOR MAY 24th AT HUSSAR

Elaborate Program Prepared for the Day's Program—New Stampede Grounds With Half Mile Track, New Chutes and Baseball Diamond—Event Will be Bigger and Better than Ever

Great preparations have been under way for the holding of the sixth annual stampede at Hussar, next Thursday, May 24th.

The stampede is the biggest annual event in the district, and every year it has been increasing in popularity and size. The 1928 stampede will be no exception to this rule. The committee in charge of the day's entertainment plan to have the best program ever held in the town.

There will be something doing all the time, from the beginning of the children's sports in the morning until the evening when the big dance begins in the Community Hall. And from then on till the small hours everybody who loves to dance, can do so to their heart's content.

Stampede Events

Frank Wolfe will again be in charge of the stampede events this year. Mr. Wolfe has a bunch of real bucking horses lined up for the cowboys, and many good riders from the surrounding country will be there to try their skill at riding the broncs.

New stampede grounds have been prepared just east of town. The grounds are equipped with three new side delivery chutes, corals, and a half mile track. The baseball diamond is inside the track.

Sports

The first events of the day are the children's sports which start at 10 a.m. The Bassano junior baseball team will play the Hussar boys at 10:30. This should be a good game, as the Hussar boys display some class both on and off the field.

At 11:30 the standard girls' basketball team will play the Hussar girls. The stampede event will be run off after lunch, and will begin at 1:30. Another baseball game is scheduled for 5:00 p.m. when Rockyford meets the Hussar seniors.

The Carnival

Carnival attractions of every description will be on the grounds, and these will include old and new novelties and amusements.

There will be refreshment booths on the grounds where one can obtain lunch, ice cream, and cold drinks.

The Dance

The day's entertainment will be rounded off with a big dance in the evening. In the Community Hall, furnished with a six piece orchestra, furnishing the music. \$2.00 will be charged for gentlemen, and ladies will be admitted free. There will be no dance in the afternoon.

Everybody is taking a holiday on the 24th of May, and the stampede and sports committee expect a monster crowd for the celebration.

Hussar Stampede THURSDAY, MAY, 24th

Cowboys and Cowgirls - Riders and Ropers
Horse Races and Calf Roping

- Admission to grounds \$1.00, children under 15 years free

Dance in the Community Hall starting at 8 o'clock
A six piece orchestra will play

BUSINESS MEN PETITION FOR HALF HOLIDAY

Council Decides Petition Needs More Signatures

A by-law embracing a half holiday Wednesday afternoon was brought before the town council at a special meeting on Thursday.

A number of business men had petitioned the council to have a by-law of this kind passed, and the council met for the purpose of discussing the matter.

There was some difficulty as to the correct interpretation of the word "shop," and as the petition required a certain percentage of the signatures of operators of "shops" the council felt that a correct interpretation of this word was a very important matter.

The meeting adjourned without coming to a decision as to what to do with the by-law. The matter will be left over until the next meeting of "shops" is obtained and it may be necessary to have more signatures affixed to the petition.

Should the council approve of the petition it must be advertised for several weeks, and objections must be filed within a certain date. After the period of advertising the council may then pass the by-law following which it will come into immediate effect.

Duchess News

DUCHESSE, May 17—On Thursday evening Miss Marie, Charlestown, representative, was here and a meeting was held. J. Abrahamson was elected president and Mrs. E. Gahan secretary. Mr. Spicer was appointed chairman of the advertising committee. Mr. Tossell, Mr. Indergard, Mr. L. Wenger and H. Waterbury took to the putting up of the tent.

Mr. Halley to distribute auto stickers. The meeting was held in the hotel lobby. Chantawau is coming Friday and Saturday, June 1st and 2nd, Monday and Tuesday, June 4th and 5th.

Mr. and Mrs. Athey are the proud parents of a baby girl, born in the Bassano Hospital on Saturday, May 19th, and whom they have named Barbara.

Frank and Lizzie Sheldrake and their mother Mrs. Sheldrake, Mr. Woodward and daughter Margaret, attended services at the Union Church in Brooks Sunday night.

Mr. W. Hare had as Sunday guests

her husband and sister, Mrs. Lewis and children, and mother, Mrs. McCracken, of Jenner.

The Women's Institute held their regular monthly meeting on May 18 with the president, Mrs. Anderson, presiding. Four new members were taken in: Mrs. Fillett and Mrs. Galbraith, as hostesses, served delicious refreshments. There were thirteen ladies present.

Mrs. Hall, of Rosemary, was a business visitor in town Wednesday. Miss Anna Hole, of Brooks, rode Sunday at the home of her mother. Mr. and Mrs. E. Sissons motored to Brooks Saturday night and took to the show.

R. B. Hamer returned from Leithbridge and reports, Mrs. Hamer as doing very nicely, and will soon be able to be brought home again.

Gem News

GEM, May 16—Chas. O'Brien, of Brooks, superintendent C.P.R. D.N.R. drag lines, was a Tuesday visitor in the Colony.

Mr. Daley, manage inspector, is in the Colony making preparatory arrangements for the compulsory dip which will be held in the near future. Particulars and details later.

Mr. and Mrs. L. Rouch, of Bassano, were Monday visitors of our local telephone operator. They returned to Bassano on Tuesday.

Mrs. Nash and Johnson, of the telephone department, were Thursday visitors to Gem Colony.

Gem Colony is receiving quite a number of new settlers from all parts of this world. Something ought to be done to welcome these new settlers and at least make them feel at home in their new homes and surroundings in the land of their adoption. Get busy, Community Club! Lot of work for you all.

Next week Mrs. McIntyre is anticipating a visit from Miss Callaghan, of Boston, Massachusetts. She will be accompanied by her mother, and after a short visit to Gem they will proceed to Calgary where they plan to make their future home.

The community got quite a scare the other evening when one local telephone operator called for help to put out a fire which had started north east of the Williamson "dry farm." A goodly number of farmers responded to the call, and a couple of hours hard work put an end to all danger of the fire spreading.

Mrs. Horne is enjoying a visit from her sister, Mrs. B. C. Farguhar, of Ashton, Idaho, who will remain at least a month in the district.

Mr. and Mrs. Leidenhauer were Sunday callers on Mr. and Mrs. Ed. Jaharua.

On Sunday evening McIntyre spent a pleasant hour with Mr. and Mrs. Graven, who are 1927 settlers from Bonnie Scotland.

Mr. and Mrs. E. Selbridge and family were business visitors to Bassano on Tuesday.

F. Williamson was a Bassano caller.

Tennis Dance Friday Evening, May 18th

The annual dance of the Bassano Lawn Tennis Club will be held Friday evening of this week, May 18th. The affair will take place in the new Masonic Community Hall, and must be provided by a six piece local orchestra.

The popularity of the Tennis Club dances is well known, and this year's dance is expected to be up to the usual high standard.

It will be a public dance, with everybody welcome, and the admission is free a person.

LOCAL GIRL MAKES GOOD MARKS AT MUSIC FESTIVAL

Little Miss Helen Travis, daughter of Mr. and Mrs. R. A. Travis, made good marks in the primary piano solo competition at the "musical festival" held in Leithbridge this week. She was awarded 152 points, standing sixth in this class, and only ten points behind the winner, Annette Smith, of Calgary, who scored 165. There were eighteen entrants in the primary piano solo competition.

Helen Travis is a pianoforte pupil of Mrs. Ethel Knox.

HOLIDAY ON VICTORIA DAY

Next Thursday, May 24th, birthday of "The Good Queen," is a holiday. All the stores will be closed.

MOTHER'S DAY AT MAKEPENCE

A well attended Mother's Day service was held in Makepence last Sunday. Rev. A. O. Thomson was in charge of the service, and a special musical program was given.

SEEDING FINISHED

Seeding of wheat is now finished in the Bassano district. Farmers are putting in time for threshing and for green feed.

The young crop is showing well above the ground and is away to good start.

Hussar News

HUSSAR, May 16—The dance given by the school in order to raise funds for athletic supplies was a splendid success. The school orchestra provided the music, which was quite full of pep and enjoyable.

The school staff were in charge of the arrangements, and assisted by the other pupils and some of the mothers, served lunch, which had been donated by the ladies.

A number of young people motored over from Bassano and a few from Chancellors, so there was a large and appreciative crowd. About 8:45 was taken in at the dance and through the sale of tickets.

A tragedy was narrowly averted on Saturday when the car driven by Hank Tread came up the hill at the east end of the lake at a rapid pace and found two cars near the top of the hill. C. C. Armstrong was driving the car from that of the Maple Leaf driver, and the door of the latter's stood open.

There was not sufficient room to pass, and in an effort to clear the way, Mr. Tread swerved aside so suddenly that the car began to whip back and forth. It struck the open door and carried it nearly away, but the force of the rebound straightened the car, and then he drove it off into the slough. He jumped from the car, and next he hit a big rock in the middle of the slough, coming down with a dreadful splash. No one was hurt, though there was a passenger in each car.

Dist. Dep. Grand Master Blacklock, of Medicine Hat, made an official visit to the Hussar Lodge A.F. A.M. on Monday evening. He is Wight, Dr. B. E. Barlow, M. D. Macdonald, and A. G. Bough, were over from Bassano, and there were many visiting members from Chancellors and Standard.

The Hussar juniors put up an excellent game of ball at Standard. The score was 22 to 6 in favor of the Hussar team. Especially good field work and throwing to bases, which put out many of their rivals when they had been successful in hitting, were the best features of the game. The players were: B. Bell, E. Betts, G. Leiford, M. Anderson, Johnnie Moffat, Laura Moffat, F. Bettley, G. Reeves, G. Montgomery. A large crowd of loyal supporters were there to "root" for the boys.

Manager P. E. Page treated the team to ice cream, etc., at the close of the game.

The young people's club gave a Monday evening musical program on Monday evening, and a goodly number were present. The following is the program: Melody by F. Margaret, Humoresque by Spring Song, Vivian Cliffridge, before Blumfeld; Les Graces, Gladys Threlk; Sixpence Waltz, dot Chester and some of the songs of my days. Margaret Reeves and Lila Cliffridge; reading, Riding in Comfort, Ruth Paul. The next meeting will be on Monday, May 28th.

The W. I. had a very interesting and instructive meeting at the home of Mrs. Elliott on Tuesday afternoon.

The program consisted of a splendid paper on "Our school and better education," by Mrs. Leiford; reading by Mrs. Elliott, "British vs. American business methods," "The Child Clinic in Alberta," by Mrs. Burdett. Song by Mrs. Bettley, "Annie Laurie." Next meeting will be held at the home of Mrs. Anderson on Tuesday, June 12th. A good program has been arranged.

FAREWELL GATHERING FOR SERGEANT AND MISS R. WIGHT

The members of Bassano Lodge A.F. A.M. and Harmony Chapter held a farewell gathering for Sergeant Robt. B. Wight and Mrs. Wight in the new Masonic Community Hall on Wednesday evening, May 16th. As a token of friendship and esteem Sergeant Wight was presented with an indestructible fountain pen, and Mrs. Wight with a set of six silver spoons.

The guests enjoyed dancing until a late hour.

BLAZE THREATENS BUSINESS SECTION

Stores of J. W. Hubert and Jack Torgue Caught Fire Tuesday Afternoon—Little Damage

A portion of the business section of Bassano was threatened with destruction Tuesday afternoon when fire broke out at the stores of J. W. Hubert and Jack Torgue. The fire department arrived on the scene quickly and with three streams of water played over the flames soon put out the blaze.

The main part of the fire was in the store room adjoining the rear of Torgue's store. This room was a mass of flammables before the fire fighters could get the hose into play, but was soon got under control.

The damage to the buildings was not great, and the small amount of goods affected was mostly damaged by smoke and water.

The fire started in the rear end of Torgue's store, and worked its way between the walls of the two buildings. Some papers and rubbish were being burned at the rear of the store, and it is believed that the fire carried sparks over to the building. The sparks got fire to the main papers against the wall, and from there it burned through the wall and into the store room.

Countess News

COUNTRESS, May 17—Most of the farmers here wish their wheat planted.

Mr. McQueen and Mr. Boothman, insurance men, of Calgary, were in the district the last of the week selling insurance to the school teachers. A. J. Levesque and son Justin are recovering from having their tonsils removed recently.

MacK Fergusson is putting in a claim at the Burn Hills school. Geo. Thompson has been ill for the past week, but is better at the present writing.

Mr. C. Stricker and children were visiting at the Anderson home Sunday.

Quite a number turned out for the Mother's Day program which was very much enjoyed.

Konita and Alice Cowen went to Bassano Wednesday where they were under the doctor's care, having their tonsils removed.

Mr. Starnes and Mathewson and Mrs. Starnes visited with Mr. O. Holm in Latham Tuesday.

Mediamer Keir, Anderson and Starnes were over.

Mr. and Mrs. Armstrong and Mrs. McDonald motored up from Glenora to spend the afternoon at the Anderson home.

BASSANO BASEBALL TEAM WILL PLAY AT HUSSAR

The Bassano Baseball team will journey to Hussar next Sunday afternoon for a repeat of the game of the week.

Several of the young people from here attended the dance in Bassano Friday night.

Mr. and Mrs. Brackley and family called on the White family Sunday.

Mr. and Mrs. C. Narum spent Sunday afternoon with Mr. and Mrs. Roy Eastman.

Neil Taunfest is sporting around in Ford coupe. Alta boy, Neil!

The following Rosemaryites attended the show in Bassano Saturday night: Mr. and Mrs. P. Adams, Mr. and Mrs. H. Narum, Mr. and Mrs. Wight, Mr. Young and Harold Kennedy, Mr. Watson, Miss L. Eastman, Miss M. Norton, Miss E. Norton, Neil Taunfest, and Jean Norton.

Mr. and Mrs. Gladys spent Sunday with Mr. and Mrs. Norton.

Bill Taunfest, Bob Taylor, and others shipped hogs Tuesday.

Mrs. E. Young and sisters are visiting here this week.

A "dip" meeting was held here Monday night. It was decided to open the Rosemary Club which will be operating on June 18 and 28.

"BEN HUR"

The super picture of the century

COMING - May 31, June 1 and 2 - "BEN HUR." The most

spectacular and stupendous picture of all time.

British Government Warmly Welcomes U.S. Movement For Peace

London.—Sir Austen Chamberlain, secretary of the foreign office, speaking in the House of Commons concerning the Kellogg outlay of war proposals, said that the British government not only warmly welcomed the initiative of the U.S. but was hopeful it would be successfully concluded, and would make a real contribution to world peace.

Sir Austen's statement followed remarks by Ramsay MacDonald, the Labor leader, who supported the Kellogg proposals.

"Our attitude toward this note is going to have a very considerable influence in Anglo-American relations," Mr. MacDonald said. "Nobody who has been in America recently or who has followed the American press will deny that these proposals are as quiet as they ought to be."

Sir Austen said he would proceed in the ordinary diplomatic channels in the matter, but that although he had at first favored submitting the matter to a conference of international jurists, as the case of the Locarno pact.

This idea was dropped, however, he explained, when "one of the governments concerned suggested that the United States—indicated that it did not approve this method."

The British attitude, the foreign secretary continued, had been forwarded to the governments of the dominions in order that all elements of the empire might seek a common position toward the proposal. It is expected to transmit the reply to Secretary Kellogg soon after the response of the dominions were received.

Sir Austen was heard with great interest by the whole chamber.

The only mark of disagreement came when he said that war had never been used as an international policy by any British government of the present era. "Here," Sir Austen barked, "I am protesting, but the secretary maintained his position."

Ramsay MacDonald said that his reaction was in view of the complicated nature of the problems and the simplicity of the Kellogg scheme. Later he was convinced that the plan was bound to be a forward step in the peace process. He declared he would make it impossible for nations to threaten war, and thus prevent the needs of war.

David Lloyd George was another who argued that there would be no point in making reservations to the United States proposal.

Made Chancellor Of Oxford University

Viscount Grey Of Falindor Elected By Acclamation

London.—Viscount Grey of Falindor, former Secretary of State for Foreign Affairs, was elected by acclamation to the chancellorship of the University of Oxford in succession to the late Viscount Grey of Iruin from the gracious gesture to Viscount Grey the decision to elect him without a contest is generally regarded as an indication of the university's "thorough" desire to separate the chancellorship from its association with politics.

Viscount Grey was foreign secretary from 1905 to 1916.

Hunting Gold With 'Planes'

New York.—An airplane hunt for gold in Ontario is planned by Jack Hammett, wealthy gold mine owner, Hamilton, who is president of the North Aerial Exploration Company, has purchased a Fairchild monoplane for the trip, and said four Fokker planes would join the quest in June.

The expedition would head for the Red Lake district of North-West Ontario.

Organize Students Aid

Winnipeg, Man.—Czechoslovak, aimed for bettering and better making, have organized here a Students Aid Association to encourage and aid their countrymen to come to Canada. The organization is mapping out good best farming districts in Western Canada for the settlement of the newcomers.

Killed By Father's Car

Toronto.—A few minutes after her father's death, a girl named Dorothy, daughter of Mr. and Mrs. H. H. Dorothy, was killed by a car driven by her parent in Milton, Ontario.

W. N. U. 1235

Plan Meets Opposition

British House Discusses Cold Storage For Imported Meat

London.—Speaking for the government in the House of Lords, Lord Strathmore, minister of agriculture, promised most carefully to consider a suggestion that all refrigerated meat imported into Great Britain from countries where the foot and mouth disease is prevalent should be placed in cold storage at the port of landing for three weeks.

Lord Strathmore, in opposing the suggestion, pointed out that 2,048,000 tons of meat were consumed in Britain in 1927, of which 920,000 tons were imported chilled beef of a quality almost equal to the best home-killed beef. In order to secure imported meat in a satisfactory condition, however, it should be available in Britain within 21 days after being shipped.

If chilled meat had to go into cold storage for three weeks on arrival, he said, its value would be considerably reduced, and it would be necessary to import meat of a lower quality. The result would be that the importation of chilled meat would cease, and nearly half the people of Great Britain would have to consume meat of an inferior quality and pay a higher price for it than they did at present.

Alfred Lowenstein, financier, now in Canada, who, representing one-third of the primary stock of the company, is reported to be seeking to obtain control of British Tractor Co., one of the world's largest public utilities.

Week-End Tickets To Europe Cost £10.00 Extra

London.—The British Electric holiday travel "Dipper" to the Continent was thrown into controversy by being required to pay \$10 extra for their annual-expiring cutting abroad for the first time since the war.

Since 1919 a special facility had been in force under which persons were allowed to buy week-end tickets to certain French and Belgian ports, available from Friday to Tuesday, which allowed the holder to travel without a passport. Henceforth passports will be required.

Persons who enquired at the French consulate-general in London, reported that the British authorities had been consented to grant a reciprocal advantage to French and Belgian nationals, and the French Government now intended to make the abuse of this facility by one individual an occasion for withdrawing it altogether.

CLASH BETWEEN JAP TROOPS AND NATIONALISTS

Shanghai.—The Japanese 29th brigade, under General Botaniya, here engaged in fighting between the Japanese and Nationalist forces.

General Botaniya's brigade came into contact with a force of Nationalists at Kien, about 100 miles east of Tientsin, and disarmed many of them, after stubborn resistance.

When Botaniya's forces were returning to Tientsin they encountered a powerful force under General Chen Tiao Yuan. Fighting was last reported to have been in progress with the result unobserved.

Chen Tiao Yuan was formerly governor of the province of Szechwan, and commanded the three national armies which succeeded in cutting the Shanghai railway April 30 at Shanghai.

The Japanese were continuing to try their attempts to disarm the Nationalists as rapidly as they came in contact with them in the entire Tientsin area. The Mikado's forces had occupied the bridge across the Yellow River at Tientsin and other strategic points.

With the exception of the two engagements at Szechwan, the most of the fighting was of a minor nature.

Would Have U.S. Mediate

Suggestion Made That Action Be Taken To Prevent War Between Japan and China

Geneva.—The peace purposes of the League of Nations will be served if Washington should waive a magic wand in preventing war between Japan and China, said a League authority discussing the possibilities of friendly mediation either by the United States Government or by the League.

Geneva circles appear confident that some soothing influence will be exercised to prevent the Chinese-Japanese conflict from growing worse. The League is ready to act if asked.

Arrives In Big Plane

Ottawa.—Captain Alfred Lowenstein, Belgian multi-millionaire, arrived at Linderhof Field here in his motorized monoplane, the largest machine Ottawa has ever seen.

Lowenstein and Mrs. Lowenstein were the guests of Premier Mackenzie King at dinner, at Laurier House. He declared emphatically that his visit to the capital was merely a social call.

British Boys Study Agriculture

The above shows a splendid group of British Public and Secondary school students who have just arrived at the Macdonald Agricultural College, near London, Ontario.

Recruited by the Department of Colonization and Development of the Canadian Pacific Railway, these young men will pursue a two year course at the College. During the summer months they will work on farms where places have been selected for them. On completion of their course they will engage in various branches of Canadian agriculture.

Ottawa.—"C" Squadron, 2nd Regiment the Alberta Mounted Rifles at Regina, has been proclaimed a "Light Infantry" by the Department of Defense. A regimental badge of "Light Infantry" design has been authorized for the "Light Infantry," Saskatoon, Sask.

PROMINENT FINANCIER

London Mint Is Working Coldest For Free State

Dublin, Ireland.—A few months hence the people of the Irish Free State will be able to handle new coins intended to displace British coins in local circulation. The contract for minting was given to the London Mint, which has submitted Dublin the first striking and now will proceed with production, beginning with silver.

The new coins will be of the same value as British coins up to 10 pence, and will be struck in the same manner as British coins.

The stipend and the "three penny" will be 10 pence, the new three penny piece being of the same of the British silver shilling, but without any milling. Drones coins also are being struck, and will be a little longer to substitute these for the corresponding British coins.

Passports Required For Short Vacation

Washington Asked To Sanction It

Ottawa.—The Journal in an editorial says: "Due to a letter addressed by A. H. Jarvis of Ottawa, to the United States consul-general here, steps have been taken by the State Department at Washington, which may result in the requirement of Canadian currency at all centres across the line."

After speaking on this score on the part of Americans on many districts has long been a source of inconvenience and annoyance to Canadian visitors to the U.S. who are required to travel without a passport. Henceforth passports will be required.

Persons who enquired at the French consulate-general in London, reported that the British authorities had been consented to grant a reciprocal advantage to French and Belgian nationals, and the French Government now intended to make the abuse of this facility by one individual an occasion for withdrawing it altogether.

Says Alberta Bill Is Given Support

Hon. C. A. Dunning Has Every Hope That It Will Pass

Edmonton.—Hon. Charles Dunning, Federal Minister of Railways, telegraphed Premier Brownlee in reply to the latter's request for co-operation in getting the Northern Railway extension through the house that he has every hope of the bill passing. The Government has done everything possible, he says, to facilitate it and extra time has been given private bills after the House has unanimously agreed that Government business should take precedence.

Dunning adds that talking-out tactics on private bills have become very prevalent during the present session.

Heavy Casualties Suffered By Chinese As Tsinan Is Captured

Shanghai.—Japanese soldiers had cleared the last Nationalist forces from Tsinan, capital of Shantung Province, and had taken complete control of the city for the capture of which the Southerners had expended the entire force of their drive.

Reports of casualties involved in the explosion of the Southerners from the city are indefinite. But loss of life is believed to be heavy for both Japanese and Chinese, with the probability that many Tsinan civilians will be numbered among the dead.

Three field batteries which the Japanese had placed in the foreign settlement, one near the United States Consulate, started to shell the city with shrapnel early in the day. Most of the population of 400,000 were caught unaware and a heavy slaughter is believed to have taken place.

In the course of the fighting the Japanese blew up the southern and western corners of the city wall and what southerners were left in the city departed in a rout, fleeing northward after crossing the Yellow River.

Resistance by Nationalists in the main amounted to little more than slipping, although occasionally small bands put up desperate fights to avoid capture by the Japanese.

According to Nationalist reports to this city, the Japanese now have complete control not only of Tsinan but of the entire Shantung railway, and the south end of the bridge across the Yellow River, the city of Kien, located 100 miles east of Tsinan.

New Road To Coast

Project Roads For Northern British Columbia Country

Victoria, B.C.—A new railway route passed through the mountains from the coast to the Peace River and northern British Columbia country was announced by H. M. Rolston, editor of the Portland Canal News who was here on his way north to Stewart.

The new plan which has just been announced by the British Columbia Skeena watershed to the Finlay basin, is 3,500 feet lower than the present route, and is believed to be a more direct route than the old one.

"It will make a much easier railway route to the coast,"

Golden Text: "He taught them, as one having authority."—Matthew 23:10.

Lesson: Mark 12:35-44. Devotional Reading: Psalm 119:1-8.

Explanations and Comments

The Captious Question In Regard To Tribute, verses 13-17. The Herodians, who were partisans of Herod, the son of the Tetrarch, were the enemies of Jesus.

Herodians and Sadducees in a plot to kill Jesus. The men whom they sent to Jesus prefaced their remarks by saying that the question they were about to propose was a dangerous one to answer, but they knew that if Jesus answered, he would be exposed.

"Don't regard not the person of God," Jesus said. "This would be to flatter Him and put Him off His word."

Then they asked their question, "Is it lawful to give tribute unto Caesar, or not?" The tribute, literally "crass money"—that is, poll tax—was a tax levied on all persons who lived in the Roman Empire.

Then they asked their question, "Is it lawful to give tribute unto Caesar, or not?" The tribute, literally "crass money"—that is, poll tax—was a tax levied on all persons who lived in the Roman Empire.

In the course of a trial the Judge turned to the negro woman on the stand and asked: "How old are you?"
"I'm seventy-three, judge."
"Are you sure?"
"Yes, sub."
"Mandy, you don't look seventy-three."
After a few moments the trial was interrupted by Mandy. "Judge, sub, I was wrong when I said my age was seventy-three; that's me! Just measure."

NO SPIN NOR CAYE

The following, clipped from the Rocky Mountain Cynos, shows how completely the English language is adapted for sudden and unforeseen emergencies:

"We begin the publication of the Rocky Mountain Cynos with some phew duplicities. The type shoulder phrim whom we got our outlight phlated to supply us with any sphs or cays, and it will be phour or phive weez bephore we can get any. The mistique was not phout on till a

day or two ago. We have ordered the missing letters and will have to get along without them until they come. We don't like the look of this variety of spelling any better than our readers, but mistiques will happen in the best or regulated phantasties, and Iph the ph's, x's, and y's hold out for sphs and cays we shall keep (sound the c hard) the Cynos philling, sphier a phason, till the sphs arrive. It's no joke to us—it is a serious sphaph."

—Phine worgue, Cynos; you can't keep a good paper sph the press.

THE DANGER OF FIRE

The fire at the Jack Torgan and J. W. Bulmer stores Tuesday afternoon is an example of the ever present danger of fire. A little loose paper lying about in corners; the burning of rubbish in an unguarded way; a puff of wind and the spread of sparks, and you have the makings of a big fire.

Had Bassano not been equipped with good fire fighting apparatus last Tuesday's blaze would have raged a large part of the business section. It was indeed fortunate that there was organized fire fighting department.

Citizens should gather up and destroy all rubbish, lying about their premises. This inflammable rubbish should not be allowed to accumulate but should be frequently burned in a metal container, and the fire carefully watched to see that sparks do not scatter.

HALF-WEDNESDAY—HALF HOLIDAY

If the plans of the Board of Trade materialize Bassano will adopt a Wednesday half holiday plan.

In most progressive towns in the west the stores close Wednesday at 12 noon or 1 o'clock. This gives clerks and business men a half holiday for the enjoyment of sport or recreation of some kind. They are entitled to this half holiday, for they work long hours every other day in the week, and especially on Saturday, when the stores generally remain open until eleven o'clock at night, and sometimes later.

The weekly half holiday plan would work well in Bassano. When farmers get accustomed to the plan they are not inconvenienced, and when Wednesday afternoon arrives they know the stores are closed the same as they are on Sunday. The farmers make provision so that it will not be necessary for them to do any buying Wednesday afternoons. If machinery breaks down and the farmer comes to town for repairs on the half holiday he will find the business man ready to assist and oblige him by supplying the repairs or spare parts needed.

We believe the Wednesday half holiday to be a fine thing, and we would like to see it adopted in Bassano.

THE JERSEY COW

The information furnished by The Viking News, that Jersey cows do well in Alberta is interesting and satisfying to those who like a little "black and tan" who furnish such rich milk.

J. A. McKinn, who farms near Viking, has done very well with a herd of pure bred Jerseys. The News says: Seven of these little cream producers earned from \$75 to \$85 a month all winter, producing from 35 to 40 pounds of milk a day which tested from 5.2 to 7.3 per cent butterfat.

Jerseys have never been plentiful on the prairies. The big black and whites (Holsteins), the pronghorned Appaches, and the sturdy and robust milking Shorthorns have always held the fancy of the dairy farmers. Probably it was thought that the climatical conditions were too severe for the frailty-built Jersey; that the richness of their milk was not sufficient to offset the smaller supply given; and that their tendency in overproducing quality was too much of a handicap.

Nevertheless, any breed of cow that will produce a gross monthly return of \$75 or \$80 is well worth keeping. They are real money-makers.

Those who love the slender, dainty Jersey, will be pleased to see more of them in Alberta.

F. BURNS SELLS OUT

Shutting in a small way, Patrick Burns, of Calgary, developed a most packing and distributing business into a large enterprise in thirty-eight years. Last week he sold the entire reorganization for fifteen million dollars.

Mr. Burns was born in Kirkfield, Ontario. He came west in the late eighties and got his start in the meat business by selling supplies of fresh beef to railway contractors. Now the Burns plant ships his products all over the world. Burns meat stores dot western Canada, and Burns bacon, ham, meat, and butter find outlets in Europe, in the Orient, and in the West Indies.

When the meat packing business was decimated during the black years of 1922, '23, '24, and even '25,

the Burns plant was one of the very few which had comparatively easy sailing. The Burns company seemed always to be one step ahead of the rest. The Irish-Canadian seemed to be possessed of an uncanny foresight in the cattle business.

His money has now acquired the successful Burns business. Ample capital will be provided for expansion. A giant business will probably be expected on the solid foundation built by Paddy Burns. It's the way all progressive enterprises are going now. But how the old timers hate to think of the jovial Pat Burns handing over the reins he has held so long, to other people and other interests.

Rocking the Overboard

First Roman (at a Christian marriage): "We've got a capacity crowd but still we're losing money. The upkeep on the lions must be pretty heavy."

Second Roman: "Yes, sir. These lions sure do eat up the prophets."

One Last Request

Doctor: "About nine patients out of ten don't live through this operation. Is there anything I can do for you before we begin?"
Ducky Patient: "Yessah. Kindly hand me my hat."

General Motors' Lowest Priced Six

IN ALL the great General Motors' family of automobiles there is no other six so low-priced as Pontiac. Yet no car more fully typifies the famous General Motors' "Policy of Progress." For the New Series Pontiac Six is as advanced in quality as it is low in price.

Look at this imposing array of fine-car features:—Rugged, powerful six-cylinder engine; New GMK high-compression cylinder-head; Crankcase Ventilation; Oil Filter and Air Cleaner; Safe, sure Four-Wheel Brakes; Lovejoy Hydraulic Shock-Absorbers.

And . . . big, roomy, luxurious bodies by Fisher (famous for fine craftsmanship)

All these are yours . . . in General Motors' lowest priced six . . . the New Series Pontiac.

Ask your dealer about the G.M.C. Deferred Payment Plan which makes buying easy.

Hussar Juniors Win From Standard

The Hussar Junior baseball team chalked up another victory last Sunday at Standard when they defeated the boys of that town by the score of 22 to 4.

This is the second win for the Hussar boys, the first being a victory over Standard on May 6th. The team has played only two games so far this season, so they have a one hundred per cent record.

The Hussar Juniors will play Standard again on Stampede Day, the 24th of May.

First Hussar Council Elected By Acclamation

Hussar is Now an Incorporated Village

The first council of the Village of Hussar consists of A. A. Clifgard, E. A. Hoiland, and J. B. Hurns. These three men were elected by acclamation last week when nominations were called for councillors for the newly incorporated Village of Hussar.

There was a fourth nominee, J. Macdonald, but he withdrew, leaving the other three elected by acclamation. The new council has not yet held a meeting, but they expect to do so very soon and get the affairs of the village under way. The reeve will be chosen from one of their number at the first meeting, and a secretary and treasurer is to be appointed also.

The incorporation of the Village of Hussar is the culmination of the efforts of the progressive citizens of the village.

Hussar now enjoys all the rights of a village, and its wide-spread people will see to it that the village keeps pace with the progress of the times.

H. D. Brown Is Enlarging Store

H. D. Brown, hardware merchant of Hussar, is building an addition on the southerly side of his store. The new addition measures 20 feet by 50 feet. Work commenced this week, and Mr. Brown expects to have it ready for moving about the end of May or sooner if possible.

Mr. Brown finds his present premises too small to accommodate the large volume of business he is doing and has had to enlarge his store. Abe Fournier is doing the building.

Big Acreage Is Seeded To Wheat This Spring

A big increase is reported in the acreage seeded to wheat in the Hussar district this year. According to estimates the acreage is about 40 per cent greater than that of last year, and is the largest in the history of the district.

Wheat seeding is now practically finished, and farmers are seeding oats.

Crop prospects are good. The young crop is showing well above the ground on most farms, and the stand is even and healthy looking. There is still moisture in the ground, and on summer-fallowed fields the moisture goes down to a great depth.

Scores of new tractors have gone out to the farms around Hussar this year, and thousands of dollars worth of other farm machinery has been sold.

HEALTH SERVICE

OF THE

CANADIAN MEDICAL ASSN.

SOUND TEETH

Whether or not a building is safe
and sound depends upon the materi-
als used and the skill of the work-
men. Our body-cells are skilled in
the building-up process, but they
must be given good materials for
it. In the food we eat. If there
are no sound teeth, they must be
provided the materials from which
to build such teeth.

Stomach, digestive, such as calcium,
form a large part of the teeth which,
in many ways, are like bone. The
outer surface, or crown of the tooth,
is made of enamel, much better. This
outer surface of enamel, is the
hardest substance in the body.

These mineral substances can only
be secured from the food eaten. In
other words, proper food must be
eaten to have sound teeth.

The kind of teeth a child has de-
pends upon the food he "nurses" at
before his birth and upon what food
he received during his earliest years.
The beginning of the tooth is laid
down very early in life, at the tenth
week of fetal life. To be exact
this is one of the reasons why ex-
pectant mothers should know what
to eat.

What are these foods that the ex-
pectant mother and growing child-
ren must have for the proper build-
ing of teeth? Food possessing these
elements are milk and milk
products, whole grains, leafy vegeta-
bles, such as celery, lettuce and
spinach.

It will be remarked, whenever the
question of diet is considered in re-
lation to health, that milk and milk
products are the first and foremost
and, following closely, are the green
leafy vegetables and fruits.

When, as a nation, we begin to
eat intelligently, most of our teeth
will disappear, and we will become
a sturdier, healthier people.

Questions concerning health, ad-
dress to the Canadian Medical As-
sociation, 184 College Street, Toronto
will be answered by letter. Questions
as to diagnosis and treatment will
not be answered.

GOOD FARMER COMPETITION

Calgary—A "good farms competi-
tion" confined to farms within a
twenty-five mile radius of Calgary,
will be held this year by the Calgary
Board of Trade. "Crop, farm build-
ing, gardens, livestock, and machin-
ery" will be taken into consideration
in making the award. A challenge
cup will also be awarded the farmer
to any part of Canada who produces
the best crop of wheat.

ESTIMATED CROP ACREAGE

Winnipeg—According to the first
weekly crop report of the Canadian
Pacific Railway this season, the
acreage seeded in the prairie pro-
vinces in fall plowing season was
low and new land broken, is estimated
at 16,298,570 acres, as compared
with 15,374,343 acres last year.
The report goes on to say that "on
account of late seeding last spring
more than the usual acreage was
summer fallowed in each of the
prairie provinces," and it adds that
the situation generally justifies the
spirit of optimism prevalent in the
west.

FOR SALE—Good sound seed po-
tatoes. Early Ohio; 60¢ a bushel.

NOTICE TO CREDITORS
AND CLAIMANTS

IN THE ESTATE OF JOHN
BOHNE, late of the Post Office of
Glen in the Province of Alberta,
Farmer, Deceased.

Notice is hereby given that all
persons having claims upon the es-
tate of the above named JOHN
BOHNE, who died on the 7th day of
May, A.D. 1928, are required to file
with the undersigned on or before
the 14th day of June, A.D. 1928, a full statement,
fully verified, of their claims and
of any securities held by them, and
that after that date the executor
will distribute the assets of the de-
ceased among the parties entitled
thereto having regard only to the
claims of which notice has been so
filed or which have been brought to
my attention.

Dated this 14th day of May, A.D.
1928.

WILLIAM McLAUGHLIN,
Solicitor for the Executor,
Bassano, Alberta. 45-47-5

Here and There

(81)

Actual sales of Canadian Pacific
Railway train loads for the first
three months of the year have been
double those of the corresponding
period of 1927. Canadian Pacific
loads generally have increased in
same proportion.

Quebec, Quebec. The mineral
production of the Province of Que-
bec for the fiscal year ending June
30, 1928, will be well in excess of
\$20,000,000 if the activity continues,
according to a statement from the
Provincial Department of Mines
just issued.

St. John's. The Maritime Pro-
vinces can find a good market in
South and West Africa for their
manufactured and natural products,
according to D. J. S. Tyrer, who re-
cently returned from there. A vast
trade, he claimed, could be worked
up in salt fish.

Vernon. For the first time in the
history of bee-keeping in British
Columbia, one bee-keeper in the
Okanagan Valley has exported a
full carload of honey from his own
hive. His 250 colonies gave him an
average of 175 pounds of honey per
colony.

Ottawa. A survey will be made
this year for a Canadian air mail
route between Montreal and Win-
nipeg. This will consist of deter-
mining the best routes and locating
landing fields. Recent announce-
ment of four air mail contracts be-
tween points in Eastern Canada
has caused much extensive work
along this line at an early date.

Midland, Ont.—For the first time
in the history of this progressive
area, a through Canadian train
train left here early in May for
Toronto, and the first C. P. R.
through train arrived from Toronto
later in the day. A bottle of champagne
was handed across the tender
of the C. P. R. locomotive as it
pulled out of Midland.

Skating in July and August will
be a prominent feature of the com-
munity winter and summer camp
to be operated in the Canadian
Rockies under the auspices of Mount
Asinibolby by Marguerite N. Ogil-
by. The winter sport is made
possible by the fact of a large glacier
that runs down the slope of the
mountain. Summer sports of
variety will also be possible at the
camp, which is one of the beauty
spots of that part of the Rockies
traversed by the Canadian Pacific.

Toronto—Premier G. B. Fergus-
son has signed a contract with the
Canadian Pacific Railway for the
supply of 120 additional cars to be
used as "travelling schools" in the
outlying districts of the province.
The cars will be equipped in Win-
nipeg and both will run out of Port
William, operating between that
city and Superior Junction. At
present, 110 cars are in operation,
both in Northern Ontario. Not only
children of trappers and railway
workers, etc., receive instruction
in these travelling schools but night
classes are provided for adults.

The annual dog-racing classic—the
Eastern International Dog-Sled
Derby—will again be run in Quebec
City, February 20-22 next, under the
auspices of the Quebec Sled-Racing
Association of that city. It will cover
120 miles in the three days and al-
ready some of the best known mush-
ers in the United States and Can-
ada are entering. The prize fund
carries a cash prize of \$10,000 and
custody for a year of a handsome
gold cup.

POPULATION OF

CALGARY AND EDMONTON

Calgary—Calgary's population is
now 32,000 and Edmonton's 22,000,
according to the houses-house can-
vass made for Henderson's Direc-
tory, which will be published in
July.

Quebec, Quebec. "Did you suffer badly from
the floods, Mr. Miller?"

Miller: "I should think I did."
Was shut up in the house with the
floods for a week."

At a conference of negro preachers

a visiting bishop was looking at the

various candidates for the

and came upon one marked 101 per cent.

He said, "Brother Jones,"

"asked of the worthy who was con-

ducting the test, "what does 100 per

cent mean?"

"One hundred per cent," advised

the minister.

"And how does this man come to

be marked 101 per cent?"

"Oh, you see, sir, he answered one

question we didn't ask him."

Local News

Jimmie Donaldson, was home from Brooks over the weekend.

The Canadian Pacific Railway Co. is building a house just east of Mr. Atkins' residence.

H. P. McDonald has a new Nash sedan, purchased from Roy Smith, local Nash dealer.

C. C. Elliott and Mr. Archibald, of Brooks, attended the Chapter meeting in Bassano Wednesday evening.

Miss Margaret Ritchie and her sister Mary came down from Calgary Friday, returning on Saturday.

The Anglican Church W. A. will hold a sale of work and tea in the Oddfellows' Hall this Saturday, May 19th, at 3:30 p.m.

Jack Torgan is a patient in the local hospital suffering from stomach trouble. His condition has shown some improvement during the past few days.

The Tennis Club annual dance will be held on Friday evening of this week, May 18th, in the new Masonic Community Hall.

School Inspector J. P. Boyce, who has been ill in the Red Deer Hospital has recovered, and returned to Bassano on Monday.

Irving Young motored in from the farm at Majorville Saturday evening, trying says he has all his crop seeded, and it is now showing up fine.

W. R. Weir was in on Tuesday from his farm at Mapleton. He has 200 acres seeded to wheat, and says prospects are fine for a good start to the crop.

Mr. and Mrs. E. J. Bell and daughter, of Lussac, were among those who came down from the neighbor town to attend the farewell gathering for Sgt. and Mrs. "Rab" Wright on Wednesday evening.

Mr. and Mrs. A. A. Hawshaw, Mrs. Macfarland, and Miss MacDonald, motored down from Hussar last Sunday. Miss E. MacDonald, who has been a patient in the Bassano Hospital, returned home with them.

The Honorable Mr. Justice, Clarke has handed down judgment dismissing with costs two actions brought by Benjie Maude Stainsliegh against James Fisher in litigation over management of an automobile paint and repair company—Calgary Herald.

The following is from a report in the Calgary Herald on a musical program put on in Calgary by the Orchestral Society: "The solo and male chorus of the 'Miserere' from Verdi's opera 'Il Trovatore' was one of the most popular numbers of the evening. Mrs. H. D. Powers, who preceded the number proper with the solo in which she displayed feeling and good flexibility of voice, sang the part of Leonora; and was supported by A. E. R. Long, tenor.

(Calgary Herald)

John W. Davis, of Calgary, the son of the late D. W. Davis, first member of the Dominion government for Alberta, was buried Friday morning. The late John Davis was 45 years of age, and passed away at the Central Alberta Sanatorium on Tuesday. His father took a very prominent part in the early life of the province, and was also manager for the I. O. Baker stores in Calgary and later in Macleod.

John Davis served in the South African war and did not return to Canada for some years. After the war he went to England and was there married. In 1904 he returned to South Africa and joined the South African constabulary. On his return to Canada, he farmed north of Stoville; but on the death of his wife eight years ago he came to Calgary. He had been a patient at the sanatorium for some time.

He is survived by three children, Jack, the eldest, being a patient at the sanatorium. The younger two sons are Charlie (Jerry) and Donald. Mrs. Brown, of Seattle, was his sister.

The late J. W. Davis, was well known in Bassano, and was at one time a member of the Bassano Lodge A.P. & A.M.

CARD OF THANKS

The members of the 'Orie' Institute wish to thank everyone who assisted in any way to make a success of their recent whist drive and dance.

KITCHEN SHOWER

Mrs. H. Beeber and Mrs. E. P. Currie were hostesses at a kitchen shower in honor of Miss Margaret Ritchie on Friday evening, May 11th, at the home of Mrs. E. P. Currie. Miss Ritchie received many useful gifts from her friends.

THE WHEAT POOL BRINGS ABOUT A NEW CONDITION OF AFFAIRS

Western
Canada's
1927
Wheat Crop
Government
Estimate
415,000,000.
Delivered
to Market
370,000,000.
Estimated
Balance
Yet to Be
Delivered
By Farmer
20,000,000.

Over eight months have passed since the commencement of the crop year on September 1, 1927, and ninety per cent of the crop has been delivered. The great bulk of non-pool wheat has left the growers' hands.

Except for those who have not had their grain threshed owing to weather conditions, and the few who held their grain since last harvest, the non-pool farmers have little concern in the present higher prices for wheat. The "Average closing prices" ever on the lips of the Grain Trade should really be figured during the time the bulk is going on the market. That is, from September to April. With very little wheat in non-pool farmers' hands how can they be benefited by high prices from now on?

Wheat Pool members, on the other hand, have a vital interest in present prices. They have seen their Pool start the crop year under a burden of tremendous wheat supplies, and a handicap of a cloud of "bearish" news. Last fall grain poured in rivers into Winnipeg, and Vancouver's facilities were taxed to the limit. Argentina had raised a tremendous crop. Europe's production was up by millions of bushels. The United States wheat crop was heavy and altogether things did not look any too rosy.

The Canadian Pool had a difficult task on hand and Pool members may have a good excuse for a feeling of elation at the successful manner in which a grave situation was handled by the organization they had created. Pool members are now in a position to participate to an appreciable extent in the rising market prices.

If there was no Wheat Pool in western Canada what would the situation have been? The bulk of the wheat would be out of the farmers' hands and in the hands of market intermediaries who would reap a very rich profit indeed. The Wheat Pool has changed this situation in a decided fashion. Now Pool members can sit back unworried and feel assured they will get the best average price for the product of their labors.

NO ONE IS GOING TO EXTRACT EVAN- GANT PROFITS FROM POOL WHEAT.

Farmers should realize that only by the Power of Control of Volume has the Wheat Pool been able to function efficiently. This volume is assured by Slogan Contracts. Join your brother Pool members in this vital undertaking. SIGN A SECOND SERIES CONTRACT NOW

OVER 10 MILLION JARS USED YEARLY

WORLD HAPPENINGS BRIEFLY TOLD

During 1927 the salmon catch in British Columbia totalled 1,360,000 cases and fell short of the 1926 production by 704,056 cases.

The Prince of Wales has decided to use a fast army two motor plane to fulfill his engagements around the country.

Fifteen Royal Air Force pilots have been killed in flying accidents since the first of the year. It was announced in the British House of Commons.

Chain broadcasting from the Atlantic to the Pacific will be undertaken by the Canadian National Railway radio stations next fall.

William Burns, 86, who came from Toronto in 1892 to organize the Columbia's schools at the request of Premier John Robson, is dead after a lingering illness.

Col. Charles A. Lindbergh has flown about 200,000 miles in his career as pilot, according to a report sent with the aeronautics branch of the commerce department.

With a view to promoting night flying in the Dominion the civil aviation branch of the department of national defence is planning a lighter airplane along the shores of the St. Lawrence for 30 miles.

Captain Malcolm McPhee, veteran master of the steamer Keweenaw, has the double honor of having opened two ports this year, the Strait and the head of the lake, securing two full bays for his lot.

Workers digging at Old Fort Erie, Ont., uncovered the skeletons of three British soldiers and an Indian who fell during the American stage of the fort in the year of 1812. Fragments of a shell and the positions of the skeletons indicated that the four had been buried by the minute that killed them.

Co-Operative Wool Marketing

During Ten Millions of Operation More Than Thirty-Six Million Pounds Were Handled

More than 30,000,000 pounds of wool have been handled by the Canadian Co-operative Wool Growers, Ltd., Toronto, during the ten years that it has been operating. The association is a sales agency serving the provincial and local associations in the provinces of Canada from Nova Scotia to British Columbia. Wool of the 1927 clip was assembled by 16 local associations and delivered to the larger organizations for marketing. The 1927 receipts consisted of 3,938,215 pounds of wool and 11,939 pounds of pelts. Of this amount, 41 per cent came from the west and the per cent from Ontario, Manitoba, and Saskatchewan together furnished 18 per cent of the total quantity.

In addition to marketing wool the association has handled sacks, twine, stockmen's supplies, and manufactured wools. Total sales of these lines for 1927 amounted to \$77,873.

Lawyer: Don't you think you are straining a point in your explanation?

Witness (a cook): Maybe I am, but you often have to strain things to make them clear.

"My Scotch boy friend sent me his picture."

"How does it look?"

"I don't know, I haven't had it developed yet."

Science Discovering Secrets Of Leprosy

Caused By Bacteria Says Professor Of Tropical Medicine

Leprosy, the dread disease, which sends its victims into colonies of "The Living Dead," has begun to give its secrets.

New evidence, relative to the ancient scourge, tending to show it is caused by a definite bacterium and is not contagious has been gathered by one of the famous "microbe hunters" of the University of California.

He is Dr. R. L. Walker, professor of tropical medicine in the University Medical School, Berkeley, Cal., who recently returned from a 14 month stay in Honolulu. While there he carried on extensive investigations of the cause of leprosy at the Molokai Receiving Hospital.

"Although Dr. Walker made it clear his findings are only tentative, he predicted that if they are sustained by further research they will result in changes of great scientific, economic and governmental importance."

"The cause of leprosy is a bacterium related to the fungus action, says a plan-like growth of microscopical size, which thrives on an living organism except that of man, but which is found in the soil virtually everywhere in Hawaii."

1. Leprosy is caused by a bacterium related to the fungus action, says a plan-like growth of microscopical size, which thrives on an living organism except that of man, but which is found in the soil virtually everywhere in Hawaii."

2. These bacteria enter the body in cuts or wounds about the feet, and are not transmitted by the leper, despite the cry of "unclean" which has driven him as an outcast from society.

Small Town Papers

FRANK PARKER STOCKBRIDGE
President, National Association of Small Town Newspapers

(Continued.)

Awards like those, and the others which the association gives annually are doing a great deal to stimulate the industry of the small town newspapers. The Brookings Register, in South Dakota, for example, holds the current award for the best small town paper. That puts the Brookings Register in the front rank of the small town papers. It was an Eastern paper, the Graphic, of New York, Massachusetts, took first place as an example of good newspaper production.

These awards are powerful inducements for the betterment of the country press, the other award, but to three spots simultaneously of the schools of journalism as perhaps the most potent factor of all in the progress of the small-town newspapers.

"You didn't think that all this flock of boys and girls who are being graduated every year from the schools of journalism were getting city jobs, did you?" asked Mr. Parker.

"I don't know just how many of them are—some are—some are not," he said. "I know that the schools of journalism are producing a large number of graduates who are not getting city jobs, but who are getting small town jobs."

"I know that the schools of journalism are producing a large number of graduates who are not getting city jobs, but who are getting small town jobs."

"I know that the schools of journalism are producing a large number of graduates who are not getting city jobs, but who are getting small town jobs."

ATER ALL There's Nothing To Equal An Anti-Bank

A SERVICE CHARGE
ON SMALL ACCOUNTS

Is Predicted By Toronto Man
But Bank Manager Thinks
Not

Are Canadian banks likely to follow the example of the United States, which levy a service charge on small accounts? In the Financial Post, A. D. Watts, a Toronto and New York editor, was reported as saying to a group of the younger financial men of Toronto, that this would amount to a service charge.

The question was in turn propounded to C. L. Hodgkins, manager of the Royal Bank of Canada, branch office, and president of the Toronto Board of Trade.

"I do not agree with Mr. Watts when he predicts that Canadian banks are likely to follow the example of the United States, which levy a service charge on small accounts? In the Financial Post, A. D. Watts, a Toronto and New York editor, was reported as saying to a group of the younger financial men of Toronto, that this would amount to a service charge."

Claims Diphtheria Can Be Prevented

Deaths Occur From Negligence
and Should Be Investigated

Says Physician

Discussing the subject of deaths from diphtheria, a physician is quoted as remarking that, when a child dies from that disease, parents should prescribe an enquiry for the purpose of finding out who is to blame, since negligence had been shown of a kind that should not be continued.

When questioned more particularly about his exact meaning, he stated that he meant exactly what he had said. Antitoxin, he explained, can cure diphtheria if given a chance, but too late-antitoxin can prevent it.

Children and adults are found who never contract diphtheria however openly they may be exposed to the contagion, because they are immune from birth. Their bodies possess some natural antitoxin or curative ingredient that prevents the virus of the disease from gaining access to their systems. But many children and adults are not immune and will contract the disease if exposed to it.

Medical science is now able to determine whether individuals are or are not immune. The thick test will do this beyond doubt.

In other words, it is now possible to take a child or an adult, apply the test and find out definitely whether he is a child or an adult, and if so, whether he is immune or not.

Mr. L. H. Newman, Dominion Registrar, whose opinion is expressed in his pamphlet "The History and Present Status of Wheat Protection in Canada," regards the problem of wheat as a complex and complicated and likely to require a considerable length of time before a final objective can possibly be reached.

The problem admittedly is complex and complicated and will require a considerable length of time before a final objective can possibly be reached. If this objective "be attained, wheat growing over large areas will be restored to its former position of relative security and importance in so far as least as concerns wheat rust.

THE PRODUCTION OF RUST RESISTANT WHEATS

Frequent Occurrence of Rust Has Resulted in Enormous Losses

Since the disease commonly known as Wheat Stem Rust has become a constituent a serious menace to the wheat crops of Manitoba and parts of Saskatchewan, the Dominion Government has directed toward the development of varieties which might resist the ravages of the pest, the production of rust resistant wheats.

Under the epidemic of 1919 which reduced the value of the western wheat crop by many millions of dollars, the losses were particularly severe in certain varieties which appeared to suffer little from the disease (but which were otherwise inferior), and such superior though relatively susceptible varieties as Marquis. The frequent recurrence of rust since the above date, resulting in enormous losses, has stimulated further activity and has brought about the establishment (in 1924), of a special "Rust Research Laboratory" equipped to deal with the problem from all angles. This laboratory, while administered and operated jointly by officials of the Cereal Division and of the Botanical Division of the Federal Farm System, is located at the Agricultural College, Winnipeg, Man., in the heart of the "rust area."

Here an excellent foundation has been laid and encouraging progress recorded by a very efficient and enthusiastic staff of scientifically trained workers. In this important respect, the Dominion is well equipped and well supplied with scientific and industrial research of the Dominion is co-operating as are also the Agricultural Colleges of the three Prairie Provinces.

Unique offer of genuine Wedgewood salad plate with one dozen jelly powders. See McKee's window.

A daughter was born to Mr. and Mrs. T. Atkey, of Daiches, in the local hospital on May 15th.

A son was born to Mr. and Mrs. P. J. Muller, of Hussar, on May 11th in the Hussar Hospital.

WHAT IS THIS GOLF?

Golf is a form of work made expensive enough for a rich man to enjoy. It is physical and mental exertion made attractive by the fact that you have to dress for it in a \$200,000 club-house.

Golf is what letter-carrying, ditch-digging and carpet-beating would be if those three tasks had to be performed on the same hot afternoon in short pants and colored socks by gouty-looking gentlemen who require a different kind of implement for every mood.

Golf is the simplest looking game in the world when you decide to take it up and the toughest looking after you have been at it ten or twenty years. It is probable that only game a man can play as long as a quarter of a century and then discover that it was too deep for him in the first place.

The game is played on carefully selected grass with little white balls and as many clubs as the player can afford to buy. These balls cost from 12c, and it is possible to support a family of ten people (all adults) on the money represented by the balls lost by some golfers in a single afternoon.

A golf course has eighteen holes, seventeen of which are unnecessary and put in to make the game harder. A "hole" is a tin cup in the centre of a "green." A "green" is a small parcel of grass costing about \$1.98 a brook and a couple of apple trees a blade, and usually located between or a lot of "unfinished excavations."

The idea is to get the ball from a given point into each of the eighteen cups in the fewest strokes and the greatest number of words. The ball must not be thrown, pushed or carried. It must be propelled by about \$200 worth of curious looking implements, especially designed to provoke the owner.

Each implement has a specific purpose and ultimately some golfers get to know what that purpose is. There are the exceptions.

After each hole has been completed, the golfer counts his strokes. Then he subtracts six and says "Made that in five. That's one above par. Shall we play for fifty cents on the next hole, too, Ed?" the golfer adds up his score and After the final, or eighteenth hole, stops when he has reached eighty-seven. He then has a swim, a pint of gin, sings "Sweet Adeline" with six or eight other bars, and calls it the end of a perfect day.

MOTHERS' DAY PROGRAM IN HUSSAR SUNDAY SCHOOL

The members of the Sunday school gave an excellent program at the Community Hall at eleven on Mother's Day. A large audience gathered in response to the artistic invitations issued to parents and friends. The following program was given:
